

# HAVE YOUR SAY! DRAFT COASTAL BY-LAW

Cape Town's coast is central to our city's sense of place, identity, and global attractiveness. Our coastline is an asset with great social amenity value, and is of huge importance to our local and regional economy. As such, the City of Cape Town has developed a draft Coastal By-law with the intention to:

- Ensure that the coastline, and the opportunities that it provides, belong to and remain accessible to all Capetonians and South Africans
- Ensure that the coastline is held, managed, maintained, and protected as common property for the benefit of current, as well as future generations
- Protect the coastline from encroachment by private properties abutting the coast
- Enable the City to more effectively administer, regulate and manage the coastal zone as a highly dynamic and sensitive natural environment
- Improve public safety along the City's coastline and
- Ensure the protection and management of the coastline to preserve its social amenity value and importance to our local and regional economy

Public hearings will be hosted to give residents and interested and affected parties the opportunity to learn more about the draft Coastal By-law and to voice their comments. The public hearings will be held at the following venues:

VENUE	DATE	TIME
